Match each lettered slide (A-C) with the position in the head & neck from which it comes (1-4)

7

What does the arrow in (b) indicate?

Two sections from the same region, one slightly higher than the other, provided to give you context.

8

(a) What region is the arrow indicating?

(b) List any important structure(s) that may be there.

9

There's a glioma (glia = glial cells, -oma = tumor, so tumor of the glial cells) in this person's brain. What part of the brain has the tumor?
